

**CHILDREN & ADULT MOBILITY PROJECT, INC.**  
**Trike Ride to Benefit our Soldiers injured in Iraq & Afghanistan**

Ti-Trikes, Inc.

**RIDE ACROSS AMERICA**

CA

CT

Honorary Ride Chairman: Wilbur J. Messier, US Marine Corps (1942-45) WWII veteran of the Battle for Guadalcanal, followed by 2 additional years in the South Pacific.

**Military Ambulation Project:** C.A.M.P. seeks to provide the latest revolutionary physical therapy equipment, developed by NASA Goddard Space Flight Center in partnership with Enduro Medical Technology, to severely injured soldiers still arriving almost daily from Iraq & Afghanistan. This equipment is needed immediately by these individual soldiers to allow them to regain the physical well-being that has been taken from them by the ravages of war. Pledges and sponsors for the "Ride Across America" will allow C.A.M.P. to donate S.A.M.s to Bethesda Naval Hospital, and V.A. hospitals across the country including CT, San Francisco, Tampa,

**S.A.M. now serving:**  
 Walter Reed Army Medical Center – Washington D.C.  
 Edward Hines Jr. Veterans Administration Hospital, Chicago, IL  
 S.A.M. is designed to aid in the rehabilitation of patients with traumatic brain and spinal cord impairments which have become prevalent among soldiers injured in I.E.D. explosions in Iraq.  
 S.A.M. is being used by non weight bearing, partial and full weight bearing patients as they go through the recovery process.  
 S.A.M. supports the patient, allowing them to stand earlier as they undergo physical rehabilitation

Yuriy @ Edward Hines V.A Hospital Hines, (Chicago) IL

Please support our injured troops with a pledge per mile for one of our riders  
 The ride of over 3500 miles leaves Connecticut in June and ends at Mike's Bikes in San Francisco, CA in mid August

SSGT. Herbert Geddes @ Walter Reed Army Medical Center. in D.C.
